

Subject: Computing

Year 7

Students study the following topics:

- An initial assessment baseline project (“Come to the Zoo”)
- Virtual tour of Archway School – Multimedia
- Online safety unit
- Prototyping “App for that”

Year 8:

Students study the following topics:

- Multimedia project – creating a movie trailer
- Computer Basics
- Coding Games
- Python Programming

Additional information:

Students will gain a variety of skills and techniques relevant to living in a modern world. An interest in technology and how it is changing the world around is useful. Engaging with technology at home as a method of research will help all subjects, not simply Computing.
